> ⓘ These discussion topics come from illustrative example rules, not from rules reviewed and approved by a clinical team.

Features you may want to discuss with a licensed plastic surgeon

Nose

For your information

The angle between the nose and the upper lip measured below the reference range.

Possible topics

- Nasal tip shape and rotation

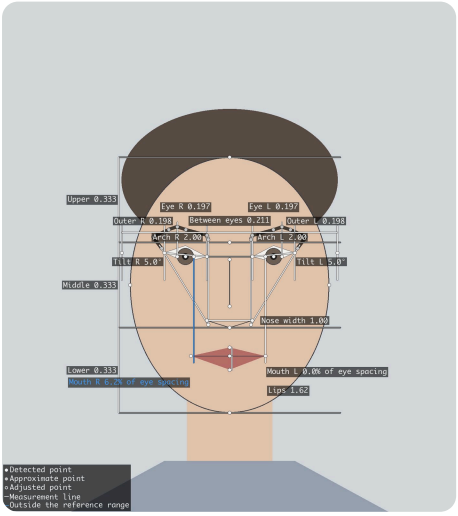

Measurements

Nose–upper lip angle	70.8°
Classical proportion reference 95.0° – 105.0° · **Below the reference range**	

Please consult a licensed plastic surgeon in person before making any decision.

All measurements

Front photo

Measurement	Value	Classical proportion reference	Status
Vertical proportions			
Upper third of the face	0.333	0.317 – 0.350	Within the reference range
Middle third of the face	0.333	0.317 – 0.350	Within the reference range
Lower third of the face	0.333	0.317 – 0.350	Within the reference range
Middle-to-lower face ratio	1.00	0.95 – 1.05	Within the reference range
Lower face			
Upper lip to chin ratio	0.50	0.47 – 0.53	Within the reference range
Horizontal proportions			
Outer face width, right	0.198	0.190 – 0.210	Within the reference range
Right eye, share of face width	0.197	0.190 – 0.210	Within the reference range
Eye spacing, share of face width	0.211	0.190 – 0.210	Too close to the reference limit to tell apart from measurement variation
Left eye, share of face width	0.197	0.190 – 0.210	Within the reference range
Outer face width, left	0.198	0.190 – 0.210	Within the reference range
Eyes			
Right eye width vs eye spacing	0.94	0.95 – 1.05	Too close to the reference limit to tell apart from measurement variation

Measurement	Value	Classical proportion reference	Status
Left eye width vs eye spacing	0.94	0.95 – 1.05	Too close to the reference limit to tell apart from measurement variation
Eye spacing	32.0 mm	30.0 mm – 34.0 mm	Within the reference range
Right eye tilt	5.0°	2.0° – 8.0°	Within the reference range
Left eye tilt	5.0°	2.0° – 8.0°	Within the reference range
Nose			
Nose width vs eye spacing	1.00	0.95 – 1.05	Within the reference range
Mouth			
Right mouth corner position	6.2% of eye spacing	-5.0% of eye spacing – 5.0% of eye spacing	**Above the reference range**
Right mouth corner position (mm)	2.0 mm	-1.6 mm – 1.6 mm	**Above the reference range**
Left mouth corner position	0.0% of eye spacing	-5.0% of eye spacing – 5.0% of eye spacing	Within the reference range
Left mouth corner position (mm)	0.0 mm	-1.6 mm – 1.6 mm	Within the reference range
Lips			
Lower-to-upper lip ratio	1.62	1.54 – 1.70	Within the reference range

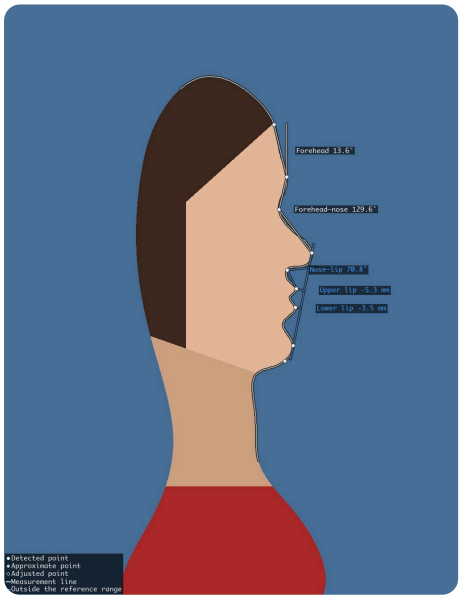

Measurement	Value	Classical proportion reference	Status
Eyebrows			
Start of the right eyebrow Approximate: this point is hard to place automatically	-0.0% of eye spacing	-5.0% of eye spacing – 5.0% of eye spacing	Within the reference range
Start of the right eyebrow (mm) Approximate: this point is hard to place automatically	-0.0 mm	-1.6 mm – 1.6 mm	Within the reference range
Highest point of the right eyebrow Approximate: this point is hard to place automatically	0.0% of eye spacing	-5.0% of eye spacing – 5.0% of eye spacing	Within the reference range
Highest point of the right eyebrow (mm) Approximate: this point is hard to place automatically	0.0 mm	-1.6 mm – 1.6 mm	Within the reference range
Right eyebrow arch position Approximate: this point is hard to place automatically	2.00	1.90 – 2.10	Within the reference range
End of the right eyebrow Approximate: this point is hard to place automatically	0.0% of eye spacing	-5.0% of eye spacing – 5.0% of eye spacing	Within the reference range

Measurement	Value	Classical proportion reference	Status
End of the right eyebrow (mm) Approximate: this point is hard to place automatically	0.0 mm	-1.6 mm – 1.6 mm	Within the reference range
Start of the left eyebrow Approximate: this point is hard to place automatically	0.0% of eye spacing	-5.0% of eye spacing – 5.0% of eye spacing	Within the reference range
Start of the left eyebrow (mm) Approximate: this point is hard to place automatically	0.0 mm	-1.6 mm – 1.6 mm	Within the reference range
Highest point of the left eyebrow Approximate: this point is hard to place automatically	0.0% of eye spacing	-5.0% of eye spacing – 5.0% of eye spacing	Within the reference range
Highest point of the left eyebrow (mm) Approximate: this point is hard to place automatically	0.0 mm	-1.6 mm – 1.6 mm	Within the reference range
Left eyebrow arch position Approximate: this point is hard to place automatically	2.00	1.90 – 2.10	Within the reference range

Measurement	Value	Classical proportion reference	Status
End of the left eyebrow Approximate: this point is hard to place automatically	-0.0% of eye spacing	-5.0% of eye spacing – 5.0% of eye spacing	Within the reference range
End of the left eyebrow (mm) Approximate: this point is hard to place automatically	-0.0 mm	-1.6 mm – 1.6 mm	Within the reference range
Left–right symmetry			
Left–right difference: eye width	0.00		Shown for information
Left–right difference: outer face	0.00		Shown for information
Left–right difference: eyebrow arch Approximate: this point is hard to place automatically	0.00		Shown for information
Left–right difference: eye tilt	0.0°		Shown for information
Left–right difference: mouth corners	6.2% of eye spacing		Shown for information
Left–right difference: eyebrow start Approximate: this point is hard to place automatically	0.0% of eye spacing		Shown for information

Measurement	Value	Classical proportion reference	Status
Left–right difference: eyebrow highest point Approximate: this point is hard to place automatically	0.0% of eye spacing		Shown for information
Left–right difference: eyebrow end Approximate: this point is hard to place automatically	0.0% of eye spacing		Shown for information
More details · Mouth			
Mouth width vs nose width	1.63	1.43 – 1.57	**Above the reference range**
Mouth width vs pupil distance	0.84	0.95 – 1.05	**Below the reference range**

Measurement	Value	Classical proportion reference	Status
Nose			
Forehead–nose angle	129.6°	115.0° – 130.0°	Within the reference range
Nose–upper lip angle	70.8°	95.0° – 105.0°	**Below the reference range**
Nose tip projection (Goode) Approximate: this point is hard to place automatically	—	0.55 – 0.60	Could not be measured from this photo
Lips			
Upper lip and the nose–chin line (mm)	-5.3 mm	-4.0 mm – -2.0 mm	**Below the reference range**
Lower lip and the nose–chin line (mm)	-3.5 mm	-2.0 mm – -1.0 mm	**Below the reference range**
Upper lip and the nose–chin line	-8.6% of the nose–chin line		Shown for information
Lower lip and the nose–chin line	-5.6% of the nose–chin line		Shown for information
Forehead			
Forehead slope	13.6°	12.0° – 15.0°	Within the reference range
More details · Nose			
Nose tip projection (Simons)	1.43	0.95 – 1.05	**Above the reference range**

This app shows measurements of facial proportions for information only. It is not a medical diagnosis or a treatment recommendation. Measurements depend on the photo and have limited precision, and proportions differ naturally between people. If you are considering any procedure, please consult a licensed plastic surgeon in person.
